PROFESSIONAL SUMMARY

Full-stack developer with an **AI-first approach to software delivery**. I use AI development tools to design, build and launch complete products quickly, and I take ownership of requirements, architecture, quality and delivery. I have delivered **multi-tenant SaaS platforms, Android applications, e-commerce websites and business automation systems** for educational institutions, organisations and small businesses. I bring 7+ years of combined experience in software development, design and teaching, and I communicate clearly with clients and stakeholders.

CORE COMPETENCIES

AI-Assisted Development	AI coding agents (e.g. Claude Code), requirement-to-specification writing, AI-assisted testing, debugging and documentation
Frontend	React, TypeScript, Vite, Tailwind CSS, shadcn/ui, responsive web design
Backend & Database	Supabase, PostgreSQL, Node.js, REST APIs, authentication and role-based access, multi-tenant architecture
Mobile	Android application development, offline-first apps
Automation	WhatsApp business messaging, automated notifications, reporting and workflow automation
Deployment	Git, GitHub, Vercel, cloud hosting
Design & Office	UI design, Adobe Photoshop, CorelDRAW, Microsoft Office

PROFESSIONAL EXPERIENCE

Freelance Full-Stack Developer & Designer · Client Projects — **Oct 2023 – Present**

- Deliver client projects end to end across design, web platform development, Android apps, e-commerce and business automation.
- Built and launched multi-tenant SaaS platforms for school management, accounting and online education.
- Automated client communication with WhatsApp messaging, which cut manual follow-up work.
- Use AI development tools to shorten delivery time while keeping quality, documentation and maintainability high.

E-Commerce Website Developer · Bigfaction, Bangalore (Freelance) — **Apr 2023 – Oct 2023**

- Developed and maintained e-commerce websites, including product catalogues, cart and checkout flows, and storefront design.
- Turned client requirements into responsive online stores and delivered ongoing updates and improvements.

Graphic Designer · HADIA CSE, Malappuram, Kerala — **Nov 2021 – Apr 2023**

- Designed book layouts in Urdu and Arabic, and created posters for digital and print media.
- Edited and proofread Urdu publications.

Lecturer – Computer Studies & Languages · Darunnoor Education Centre, Mudbidri, Karnataka Nov 2018 – Nov 2021

- Taught Computer Studies to senior secondary students, along with Urdu, Arabic, English and Hindi.
- Coordinated students' extra-curricular activities.
